Additional lead time and upcharge applies to our design colours. Some design colours require a double topcoat application. These colours are marked with a \* on this leaflet.

# We'll colour you

## The seamless shades of Pulastic distinction

Pulastic floors are produced according to stringent guidelines and installed by trained, skilled professionals. Descol is always at the forefront of the latest technology and takes on board the latest market trends, while also listening to ideas of our valued relations. Descol realizes that sporting facilities need to be multifunctional as well as service all sporting groups and users. That is why our Pulastic floors not only meet and exceed the expectations of all sporting bodies but also facilitate such activities as exhibitions, concerts and other events with ease.

From children playing to professional athletes, Descol's Pulastic flooring can cater to all. Pulastic has all the bases covered whether you are looking for durability, safety, sporting performance or outstanding aesthetics! Pulastic floors are sustainable, resilient, seamless and durable.

### Colour possibilities

Descol has a colour combination to suit your needs for sure. We encourage our customers to use colour as an attribute to their facility and be creative. The seamless structure of Pulastic floors facilitates the combination of different colours in the same floor. It is your choice.

### Classic

Descol's Pulastic flooring is still available in familiar classic colours which have been the colours of choice since 1965 to our treasured customers. Rest assured these colours will stay in our range.

### Design

Descol is always moving with times and trends, continually innovating and improving. To enhance our existing selection of colours even further and due to increased demand for special colours, Descol introduced a trendy colour line! Aesthetics of a facility are becoming more focal and therefore colour and design more a pivotal part of influence.

### Line marking colours & logos

Line marking colours have guidelines and standard norms which vary between countries and level of competition. Descol specialists apply the line marking within the appropriate standard and in the order of dominance required. Logos or design shapes can be included at this stage also to make your floor unique and truly a feature of the facility.

### New and revised

All of Descol's colours can be applied to new floors, but also on renovations and top coat treatments such as our Pulastic facelift program. This is a opportunity to give your facility a new life.

# PULASTIC®

# Descol lays the foundation for top performance

Athletes want to win, and so does Descol. That is why Descol develops, manufactures and installs sports floors that are way ahead of the others. The name is Pulastic. An exceptional range of indoor sports floors that is preferred by athletes all over the world. And with good reason. Because with its Pulastic floors, market leader Descol lays the foundation for top performance - time and again. And has been doing so since 1965.

## Everything under one roof

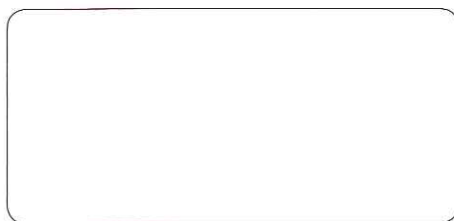

Descol, headquartered in Deventer, is an innovative company that bundles a range of services under one roof. From research to development, from production to installation and from service to advice and after-care. At Descol, some 75 skilled employees ensure that the company maintains its lead and is able to continuously grow. Knowledge, competence and years of practical experience enable Descol to deliver optimal quality with an abundance of advantages for every customer.

## Number 1 in sports floors

Descol has a worldwide distribution network in over 60 countries. Descol trains the distributors' installation teams itself. This is the only way Descol can guarantee that a Pulastic sports floor stands for top quality, a long life span, maximum performance, minimal injuries and versatile application options no matter where in the world the floor is installed. Descol has installed over 25 million m<sup>2</sup> of Pulastic sports floors globally at over 50,000 facilities. Proof positive that we are clearly number 1 in this area.

## The strength of our parent company, Sika

Descol is part of the Swiss conglomerate Sika AG. Sika employs over 12,000 people and operates 106 manufacturing and marketing companies in 72 countries. Sika is a versatile multinational company specializing in chemical applications in the construction and industrial sectors. The independent, family-owned company established in 1910 is quoted on the Swiss Stock Exchange (SWX) and is, to a large extent, still in the hands of its founders.
